RECOMMENDED USE: Because NONI100™ is 100% pure aged wild harvested Noni and contains no fillers, sweeteners, artificial flavorings or artificial ANYTHING, it has a distinctively strong Noni smell and taste. NONI100™ can be taken by itself or you can mix this strong pure Noni juice with your favorite natural Fruit Juice. Your Noni drink should not be overly sweet when you mix it, but should have a very slight Noni "bite" to it. If you need to dilute NONI100™ with fruit juice, for maximum performance, eventually you should reduce or eliminate the amount of juice and take straight NONI100™.

WARNING: Due to the high amounts of naturally occurring organic potassium in this product, those with kidney disease or on dialysis should not use this product.**

USO RECOMENDADO: Debido a que NONI100™ es 100% Noni puro, añejado, y silvestre no contiene aditivos, endulzantes, sabores artificiales, tiene un sabor y olor a Noni particularmente fuerte. NONI100™ se puede tomar puro o mezclado con su jugo natural de fruta. Su bebida mezclada con Noni no debe ser demasiado dulce, sino más bien conservar un ligero "toque" del sabor a Noni. Para lograr el máximo beneficio deberá ir reduciendo el jugo hasta lograr tomar el NONI100™ sin mezcla alguna.

Genesis Today is proud to manage, oversee, and fund our very own wild harvested Noni farms located exclusively in remote, tropical volcanic regions of the world. This ensures that we are able to offer you the world's best Noni juice from our farms to your local health food store at the very best price.

**These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure or prevent any disease.

The Noni fruit in this product is cultivated as a wild crop using no pesticides or fertilizers. Therefore, it is considered by all standards to be Organic in its harvesting and growing process.

2020 GEN LAB-04

100% Pure Aged Noni (Morinda citrifolia):

Noni contains over 160 powerful vitamins, minerals & other nutrients that positively affect our bodies in many profound ways. Some of these positive compounds include Acubin, Alazarin, Asperuloside, Anthraquinone, Bioflavonoids & Glycosides.

Noni contains Scopoletin, which is believed to help support circulatory health. It also supports healthy immune function as well as healthy inflammatory processes in the body.*

Pure Noni is a naturally powerful digestive bitter, rich in enzymes which may help support healthy digestion. Anthraquinones (mentioned earlier) from Noni help support the natural activity of the entire digestive process.*

Noni juice is very acidic in nature and has a very low pH of 3.4 - 3.8. Despite Noni's low pH, its overall effect on the body is a balancing of proper acid/alkaline ratio which is important to maintain good health.*
